

ONLINE LEARNING ETTIQUITE

STAY
SAFE

STAY
INSIDE

IT'S GONNA
BE OK

1

Be punctual. Online learning can be very stressful for teachers especially when students don't come on time and they can't find them either since they are at home. It can be even more frustrating for your peers who are waiting for you to come and cannot begin their learning since you were not punctual.

2

Learning space. Your learning space impacts how you learn, for example let's say you sit in front of the TV compared to someone who sits in a room with distractions they will be much more focused. Furthermore make sure you are sitting (preferably on a desk) with proper posture not lazing about on your sofa since this posture will make you feel sleepy and tired.

3

Turn your camera on. Though everyone can still your voice no one will know who is talking and it is just nicer to be working with the friendly faces of your fellows peers in front of you. Additionally you won't be able to see your friends and classmates for sometime so it is nice to be able to see your friends and connect even if it is online. Also be on mute when others are talking.
